

New Zealand Report 2018

Konko Osaka Junior High School 3rd graders' Report

2018. 8. 8

Our Class (1)

No.17

The class at Kaplan is very fun. The class is almost speaking. I am not good at English, but I feel happy when my English gets through to my teacher and friends. At first I couldn't talk very much. But I can talk a lot now. I want to enjoy more for about two weeks.

MAHIRO

My classes are very interesting every day. Julie is very kind. And when we speak Japanese, she warn us kindly. So she is a very good teacher. The contents of classes are also easy to understand. I don't have worry about my classes at all. I'm looking forward to going to school every day. I want to take more classes!

RISEI

Lessons in NZ are very different from lessons in Japan. Lessons in NZ, we don't use a text book. And we study with playing. It is very fun. Of course when I talk with my teacher, I speak in English. But when I talk with my friends, I inadvertently speak in Japanese. I'm conscious of using English these days.

HINA

KONKO 1

I belong to KONKO 1. All classes are very fun. After I came to NZ, I often use Yeah. When I was in Japan, I often used Yes, No, or OK. I was confused my teacher's English. But my classmates always help me. I have 8 more days to take classes. So I would like to enjoy the classes more. And I want to learn more about English.

SHUGO

It is very fun in my class. My class teacher is Julie. She is kind for us. We often play games in class. But we sometimes think alone. We sometimes think together. My best class is to think with a group. Because everyone says their opinions. So we can listen to a lot of opinions. And we enjoy the class English, which is hard for me. But Julie teaches English to me kindly.

HIROMASA

I think that my Kaplan's class is very fun. My teacher, Julie is very good. My class Konko 1 is very fun. When we start lessons, we often do mini games first. We are writing the poster about New Zealand now. About me, I am writing about Sky tower and Sky walk. Yesterday we were writing our own story, and in the afternoon, we were going to Auckland museum. Then everyone's class is preparing for the last day's party. For example, Haka and the Maori's culture. So it is very fun.

REO

About 2 weeks have already passed since I began to learn in the Kaplan. The classes in New Zealand are very fun and exciting! And our teacher Julie is so kind and interesting! When I started to learn in the school, I didn't speak English very much. But I can speak English more during the classes now. I don't have much time in New Zealand now. So I'd like to speak English more and more!

KAISEI

I take lessons with 11 friends and my teacher is Julie. The lessons are different from the school in Japan. Especially, in lessons we often stand up from a chair. For example, we make and write something and ask each other. In the afternoon lessons, we usually practice of Farewell Party. I'm glad to be able to touch the NZ culture!!!

SAKI

My class is Konko 1. Our teacher is Julie. She is very funny. Because she's always smiling. So Julie's class is very fun. My classmates are very clever. Everyone speaks English in class. But I can't speak English as well as my classmate. Because I don't know as many words as they. But when I come back to Japan, I'm sure I will be able to speak English well. I'll try to do my best!!!!!!

MINA

I'm always enjoying classes! Because the teachers in New Zealand are very interesting. In Japan, we usually take classes quietly, but we're taking the class like a conversation! So I can enjoy though I have to speak only English. And I often move in the classroom, so I'm not sleepy during the class. Anyway, I would like to take classes like classes in New Zealand in Japan, too!

JINYA

Three weeks have passed since we came here. Our class is very hard for me because we can't speak Japanese. Of course, we always have to speak English. If we speak Japanese in class, our teacher gets angry. So sometimes we can't understand each other. But we are happy when we can do that. Just speaking English is very difficult for me.

KOHEI

In my school, I always have to speak in English. It's too difficult, but it's very fun for me. In my class, "Konko 1", is very good. I enjoy my class every day. We learn English and play many games. For example, "Hot Potato." If I catch a ball, I have to say something of New Zealand. (kiwi fruit, sheep, Pavrova...) I can speak English better than in Japan. But I want to learn English more!

KOKOA
