

New Zealand Report 2018

Konko Osaka Junior High School 3rd graders' Report

2018. 8.16

What I learned(1)

No.22

Studying abroad is going to finish soon. I have been staying in New Zealand for a month. And I talk about two things. First, I talk about word power(tango-ryoku). I think, word is the most important. If you don't know the words, you can't understand partner's conversation. If you knew the word, you can understand partner's conversation. Second, smile is important. If your partner has no smile, what do you think? You may not have a good feeling. So I think smile is important. It was really fun for a month. Thank you for everything.
KOTARO

Studying for one month in New Zealand will finish soon. I studied English very hard. Because my school is all English, and when I come home, my host family talks in all English. Also this school's homework report is very difficult and very long sentences. Also I learned to go shopping in foreign countries. I thought shopping would be very hard. But I can do shopping well. This stay in a foreign country will finish soon. Now I like JAPAN the best in the world.
HAYATO

I spent one month in New Zealand. I learned many things. For example I had to speak English. The ability to take action was very important. I couldn't learn everything. That's natural. But I tried everything I can do. I found the most important thing among them. That is to talk. If we don't talk, nothing will start. I thought I need to talk. I tried to speak without being shy in Japan too. I am glad to come to New Zealand. And I want to thank a lot of people.
TEMMA

About one month has passed since we came to New Zealand. At First I thought it was very long. But I think it is very short now. I learned many things. I learned not only English but also the culture of New Zealand. The most impressive thing is HAKA. When I saw real HAKA, I was moved. It was so powerful. So I practiced it as hard as possible. I want to take advantage of the experience in New Zealand from now on.
MAHIRO

Hello! I will finish studying in New Zealand for a month. In the first few days, I did experience jetlag, culture shock, and homesickness, but I used to doing homestay and the New Zealand life. It was very fun on Saturday activities. Sky Tower had a magnificent view from the window. Auckland Zoo and Kelly Tarlton an aquarium were very beautiful and very wonderful. Horse riding was very fun and amazing. Sheep's wool was very fluffy. I'm going to do my best in Canada school trip in the future. It was very fun in New Zealand!!
RYOSUKE

It was very good. Kaplan's teacher was very kind. So I could study safely. I could eat a variety of delicious food and do activities. They were very very good. My days in New Zealand got better and happier for one month. Horse riding was the best for me. I bought some gifts for my family. NZ was very very good and beautiful, and I was very very happy
SHUNSUKE

At last my first study in NZ will finish soon. I learned many things. For example cultures, languages, the city. And the biggest thing was home stay. My host family was so kind to me. I love my host family. I thank this meeting. I could have a precious experience. I went sightseeing on Saturdays. I went to sky tower, the zoo, a farm...all were very nice places. I could touch NZ culture with my mind. At first I was so scared, but now I am very satisfied. Because I got used to speaking English. I want to study abroad again!
NAOKI

I can speak English much better than before through my life in New Zealand. I couldn't talk with my host family in the beginning. But now, I can talk with them happily. I will miss them after I come back to Japan. I also knew different cultures. There is a traditional and good culture in New Zealand. It is Maori's culture. I saw many Maori's things. I'm glad to know their culture. I had a very good time in New Zealand!
RISEI

I have enjoyed a New Zealand life. I have three reasons. First, my host family was very kind and very funny. And my host family's cooking was very delicious. Second, I enjoyed my school. Because class was very funny and my teacher was very kind. Third, I enjoyed activities. Because all activities were fun. But I didn't like sky tower. It was very high, So, I couldn't move. But I like horse riding. So, I want say "Thank you" to my host family and my school teacher. I enjoyed my New Zealand life. But I miss Japan. I am looking forward to seeing my family.
HIDETO

I came back to Japan on August eighth. So I stayed in New Zealand for only three weeks. But I was very excited. First I could learn Maori culture. The culture was interesting. And Haka was very strong. I want to try it. And I have to search Maori culture for the report. Next, I learned to do my own things. Before this visit, I made my parents do everything for me. But I can do my own things now. I enjoyed staying. I want to go abroad one more.
YUICHIRO

Our studying abroad is about to finish.... Time flies! By the way, I made "one goal" before coming to New Zealand. It was "enjoying and challenging various things." I think I could achieve it. Especially, I could enjoy everything in New Zealand!! So I feel very lonely now. And then I think I was able to state my opinions firmly. I'd like to make use of it from now on! Through this studying abroad, I could develop myself and we made our ties more tightly. This studying abroad is my treasure and memory in my life. I'd like to say "Thank you" to my host family, my teachers, my friends and my family very much!
THANK YOU SO MUCH!!!
KAISEI

I finished the study abroad in New Zealand for a month. I think I could grow up. My grow-up point is my English ability. I said "I want to be a good English speaker" in the second report. I don't know I could become a good English speaker. But I can understand English more than me in the past. So, I think this study abroad very good. Thank you, my host family and teachers of Kaplan.
HAJIME

I joined New Zealand study program for a month. I was very nervous when I was in Japan. But I enjoyed New Zealand study program. I think that I was able to have a good time thanks to my host family and Kaplan teachers. I think that it became a fulfilling study abroad than studying in Australia last year. This study abroad is the greatest in my life. I would like to continue to study hard even when I return to Japan.
