The Trip to Rotorua  
Class 2

No. 4

I was a little moved when I arrived at the airport. It was because I came to a foreign country for the first time. I arrived here with some anxiety. Two days of sightseeing began. Everything was wonderful, but among them Hobbiton village was very impressive. It was used for movies, and was faithfully reproduced. I also want to enjoy New Zealand more!

Haru ITO

I left Japan. I will stay in New Zealand for a month. I was able to arrive in New Zealand safely. I still have a lot of anxiety. For example, "Can I take classed in all English?" an "Can I talk with my host family?" But I have a lot of expectations. I will enjoy myself in New Zealand.

Yuma KAKUHASHI

I arrived in New Zealand yesterday. The sky is near us, and I found a broad grass field. I was excited to do the experience. Signals are square here. It is July now, but New Zealand is a winter season! I feel "I am abroad." I'll try my best to speak English and work hard!

We arrived at New Zealand at eleven o'clock. It was three hours later than our plan. After arriving, we ate lunch box in the bus and went to Waitomo Caves. It was s beautiful. But we weren't allowed to take photographs. After that, we went to the hotel. It was so clean. But I had a little stomachache. I realized that I would have to take care of my body more.

They were shining beautifully in the dark. I enjoyed Hobbiton Movie Set, too. It was a filming location of a movie, and the view was fantastic. I try to enjoy my school life in New Zealand.

Hello. I am in New Zealand now. New Zealand is a powerful, beautiful and interesting country. In Waitomo Caves, the fireflies were beautiful and it looked like the Milky Way inside the caves. At Hobbiton Village, the excitement in my mind didn't stop. It was as if I were in the movie world. I have stayed in New Zealand for only two days, but I think it is a very good country.
