Horse riding was very nice. Because I could ride for a long time. My horse's name was Micky. Micky was very tall. So I was a little scared when I rode on. But I got used to riding. Micky was a good boy. I had a stomachache before I rode on a horse. And the shearing sheep show was very good. The sheep was very cute.

I rode a horse today. I saw a horse for the first time. It was very mature. When a horse walked, it shook me messed up. Especially the downhill was very terrible. I rarely ride a horse. So I think it was a very good experience. I was very scared but it was very fun. I want to do it again.

Yusaku TATSUMI

This was my first time to do horse riding. So I thought it was difficult. But my horse was quiet and I could go to the end. After riding for a while, it became a little fun. Since the Manuka Honey and many kinds of honey were cheaper than the stores I always go. I had a fun to do shopping.

Masayuki TANAKA

I experienced my first horse riding. I thought it was not difficult because I have experienced riding on a camel at Tottori before. But it wasn't. It was higher than I thought and riding on a horse was really painful for my crotch. If I can do it again, I will try a shorter course. I had a lot of fun riding a horse, watching a farm show and honey store. I am looking forward to the next tour.

Mitsuaki FUJISHITA

Hello! Today, I did horse riding. That was my first time to ride a horse. But actually he was really hungry and going somewhere and eating grass. That was so hard to stop it. But that was a precious experience for me. After that, we went Sheep World. I could see a red sheep. It was rainy, but it was a really nice day for me.
