I have a good time every day. Because my teacher is very kind to anyone. And she gives a clear lesson to us. It is difficult for me to speak only English. But to speak English is a very nice training. I have many good friends. They help me when I can't understand. I will do my best to speak English.

Seiji ARIKAWA

New Zealand lesson is different from Japanese lesson. New Zealand lesson is 90 minutes. Japanese lesson is 50 minutes. So I feel it very long. But all in English. It is more fun than Japanese lesson. And the first climbing was very tired. Because we are short of exercises here. And it was very high and scared. Anyway, I am working hard and enjoying it.

Yuya KUBO

Two weeks have passed since the first class. The class in New Zealand is very fun. Through the class, we practice English conversation and play English games. It is fun to talk with friends in English. I want to talk a lot to make progress in English!

Yusaku TATSUMI

When I came here, I thought I could listen to English and understand it but that speaking was hard for me. So at first, I said only words. But I have taken English classes for two weeks, and I came to speak English better. Now I am trying to speak English as much as possible not to waste the rest of study abroad.

Masayuki TANAKA

I am taking classes from a teacher named Robin. Robin is a very cheerful person. That is why I am having a lot of fun every day. But I want to reduce my Japanese in conversation. Sometimes I do not understand the lesson. My classmates help me, but I want to ask questions more aggressively.

Haru ITO

I had an anxiety. I thought that the English class would be very difficult. When I took the first English class, I had a lot of fun. The English class is more fun than the classes in Japan. I am enjoying more than before now. The teacher is kind enough for us to speak English. I will enjoy the next two weeks.

Yuma KAKUHASHI

I'm studying English every day in New Zealand. The lesson is all English. It is very difficult for me. So I could understand only a little. But I am getting used to it now. So I came to talk to my teacher in English better. The lesson contents change every day. Usually I have a lot of fun because we have some activities in class.

Naoto KATSUMATA

Hello! Classes in New Zealand are fun. But I'm really tired. Because I often move my body and I can only use English. But I feel I learned to speak English little by little. And I think the reason why teachers are smiling is also fun!

Makana KUSAO

Hello, my name is Yuya. I'll write about my class. My class friends are very interesting people. Some people make their own lunch. Last time, there were people who made coffee in miso soup. I do various things in class. I went to the museum and did bouldering. And NZ classes are very interesting. Also, it's been 2 weeks, but I want to make it 2 more weeks more enjoyable than now.

Yuya KUBOTA

My class is so fun but I am sometimes sleepy. But I am not bored. My classmates are so funny and my teacher is so funny too. I came to Kaplan, and I'm having so fun and happy. I want to learn English and I want to stay more in NZ. In lunch time I can see my friend's lunch. I think they have so great lunch!

I am in Konko 2 class. My teacher is Robin. Ms. Robin is very interesting and speaks kindly. So I like my teacher. If we don't understand, it is good to rephrase it. The class is very fun because it has a lot of things. I would like to listen to and speak English more for two more weeks. And enjoy classes more!
